

HYBRID & REMOTE TECHNOLOGY FOR LIFE SCIENCES

The life sciences industry faces many complex communication challenges, including effective collaboration with key stakeholders, cross-functional collaboration, regulatory compliance and educational outreach. X20 OneRoom provides an advanced immersive hybrid environment giving professionals across the diverse field of life sciences capability to deliver the highest quality training, enable swift decision making and communicate effectively.

ACCELERATE YOUR LEARNING

OneRoom is a unique immersive collaboration space designed to provide hands-on training and immersive learning experiences for healthcare professionals.

With **OneRoom's** unique features it is a flexible solution that can be used to learn new clinical skills, collaborate with peers, position new products or drugs, share compliance updates or host multi-disciplinary meetings.

DYNAMIC LEARNING WITH A DIFFERENCE

Take training and learning to a new level with **X20 OneRoom**.

SPATIAL AUDIO

Quickly identify & locate attendees to engage face-to-face

PERSPECTIVE CAMERAS

Give learners their own personal view of the room for higher levels of participation

POLLS AND QUIZZES

Get instant feedback by assessing engagement and learning outcomes during a session

HYBRID BREAKOUT GROUPS

Provide space for discussion between online and in-person learners for better understanding

INTERACTIVE WHITEBOARD

Share content that everyone can view and annotate for individual or group collaboration

CONTENT SHARING

Bring training sessions to life by sharing content to the group from any device including AR/VR, holograms or video streams

REMOTE PRESENTER

Flexibility to facilitate sessions from anywhere in the world with full control and visibility over all attendees

CONNECTED SPACES

Connect multiple rooms together to create one dynamic learning space

APPLICATIONS FOR LIFE SCIENCE INNOVATION

RESEARCH

OneRoom can be used in laboratory environments for analysis and research, or for product development and professional training.

Use OneRoom to communicate with peers and experts across different locations, discuss research in real-time and share knowledge. OneRoom can also be used for testing and training with new devices or equipment.

TRAINING ROOM

OneRoom can be used for professional skills development and internal training to enhance employee's communication, decision-making and critical thinking.

Bring employees from across functions together for soft or hard skills training, assessments, induction or hands-on training. Use OneRoom to deliver the same high-quality training to both in-room and remote employees with a true one-to-one human connection.

AUDITORIUM

OneRoom can be used to replicate real-life situations for training in auditoriums or live simulations and for demonstrations to showcase new products, or the hosting of product launches.

Use OneRoom to reach a wider audience beyond the physical room and create a hybrid collaboration space to deliver immersive training for new devices or products on a larger scale helping with time and travel constraints.

EXPERIENCE CENTERS

When X20 OneRoom is combined with X20 OneVu you can create experience centers with a high level of immersion and engagement. Transform spaces into bespoke showcases where organizations can create unique hybrid journeys to engage organizations, customers and employees.

Create a sense of theater and showcase new products, solutions and devices with personalized experiences and provide interactive and collaborative spaces that build excitement and deliver the wow factor.
