

IMMERSIVE TRAINING TECHNOLOGY FOR MANUFACTURING

The manufacturing industry faces many challenges that include supply chain disruptions, workforce shortages, continuous learning, cyber threats, and the imperative to maintain efficient production with minimal downtime. Keeping pace with technological advancements and integrating automation into existing processes requires significant time and effort.

X20 OneRoom provides a unique hybrid technology solution that empowers organizations to deliver top-quality training, facilitate swift decision-making and enhance communication.

ACCELERATE YOUR LEARNING

X20 OneRoom is a bespoke immersive collaboration space designed to help deliver engaging, consistent and an equal learning experience at scale for learning, training and collaboration.

OneRoom is a unique environment that enables participants to learn new skills and enhance their knowledge in a hybrid or remote setting. Ideal use cases for OneRoom can be for prototype development, training on safety procedures and compliance regulations, quality control and supply chain dynamics and to host training workshops for machinery and heavy equipment.

DYNAMIC LEARNING WITH A DIFFERENCE

Take learning and communication to a new level with **X20 OneRoom**.

SPATIAL AUDIO

Quickly identify & locate attendees to engage face-to-face

PERSPECTIVE CAMERAS

Give learners their own personal view of the room for higher levels of participation

POLLS AND QUIZZES

Get instant feedback by assessing engagement and learning outcomes during a session

HYBRID BREAKOUT GROUPS

Provide space for discussion between online and in-person learners for better understanding

INTERACTIVE WHITEBOARD

Share content that everyone can view and annotate for individual or group collaboration

CONTENT SHARING

Bring training sessions to life by sharing content to the group from any device including AR/VR, holograms or video streams

REMOTE PRESENTER

Flexibility to facilitate sessions from anywhere in the world with full control and visibility over all attendees

CONNECTED SPACES

Connect multiple rooms together to create one dynamic learning space

APPLICATIONS FOR MANUFACTURING INNOVATION

PRACTICAL TRAINING

OneRoom can be used for practical training to bring hybrid and remote attendees into a more intimate space for brainstorming, product development and research.

Practical training provides learners with hands-on experience to apply their knowledge to actual scenarios. OneRoom supports skills development and improves retention, making it easier for attendees to develop their skill set.

TRAINING ROOM

OneRoom can be used for professional development and internal training to enhance employee's skill set.

Bring employees from across functions together for soft or hard skills training, assessments, induction or hands-on training. OneRoom delivers consistent high-quality training to both in-room and remote employees with a true one-to-one human connection.

AUDITORIUM

OneRoom can be used to replicate real-life situations for training in auditoriums or live simulations and for demonstrations to showcase new products, or the hosting of product launches.

OneRoom reaches a wider audience and creates a hybrid collaboration space to deliver immersive training for new products or prototypes on a larger scale minimizing travel and time constraints.

EXPERIENCE CENTERS

Combine X2O OneRoom with X2O OneVu to create experience centers with a high level of immersion and engagement.

Organizations can transform spaces into bespoke showcases and create unique hybrid journeys to engage customers and employees.

Create a sense of theater and showcase new products alongside prototypes and machinery with personalized experiences and provide interactive and collaborative spaces that build excitement and deliver the wow factor.
